Must Have Java Development Kit (JDK)

You Must Have the Java Development Kit (JDK) Installed

1. Check out my YouTube video for this:

<http://www.luv2code.com/install-java>

Required Software

To Build JSF Applications, you need the following:

1. Java Application Server
2. Java Integrated Development Environment (IDE)
3. JSF JAR files

Video Break Up

1. Java Application Server - **Tomcat**
2. Java Integrated Development Environment (IDE) - **Eclipse**
3. JSF JAR files - **Eclipse Setup**
