

Files Workshop

- Given this data structure

```
struct language {  
    string language;  
    string designer;  
    int date;  
};
```

- And this file

C++ Stroustrup 1979

Java Gosling 1991

- Write a program which will
 - Read in the data from the file into structs
 - Populate a vector with these structs
 - Print out all the elements of the vector, separated by commas

- Modify your program so it correctly handles the following input file
 - C Kernighan & Ritchie 1970
 - C++ Stroustrup 1979
 - Java Gosling 1991
 - C# Hejlsberg 1999
 - Python van Rossum 1991
