

# Write Algorithms Exercises

# replace()

- Describe the replace function
- What arguments does replace() take?
- Write a simple program that uses replace()
- Write the equivalent code without using replace()

# replace\_if()

- Describe the replace\_if function
- What arguments does replace\_if() take?
- Write a simple program that uses replace\_if()
- Write the equivalent code without using replace\_if()

# replace\_copy()

- Describe the replace\_copy function
- What arguments does replace\_copy() take?
- Write a simple program that uses replace\_copy()
- Write the equivalent code without using replace\_copy()

# replace\_copy\_if()

- Describe the replace\_copy\_if function
- What arguments does replace\_copy\_if() take?
- Write a simple program that uses replace\_copy\_if()
- Write the equivalent code without using replace\_copy\_if()
