Summary

Motivated and fast-learning **junior developer** with a strong foundation in web development and a passion for building practical, user-friendly applications. Recently completed a full-stack development bootcamp and actively working on personal projects to sharpen coding skills. Eager to contribute to a collaborative development team and grow as a software engineer.

Experience

Customer Support Associate

HelpLine Solutions, Chicago, IL

Aug 2021 – Jan 2023

- Provided email and live chat support to customers using internal web tools
- Collaborated with developers to report recurring bugs and suggest UI improvements
- Sparked interest in programming through exposure to the product's back end

Freelance Web Assistant

Self-employed

Jan 2024 – Present

- Helped a small local bakery redesign their homepage using HTML and CSS
- Implemented responsive layout for mobile and tablet users

Education

Full-Stack Web Development Bootcamp

CodeCrafters Academy (Remote)

Completed: April 2024

- Built 3 solo and 2 team projects using HTML, CSS, JavaScript, and React
- Covered fundamentals of web development, Git, version control, and responsive design
- Final project: "BudgetPal" – a simple budgeting tracker (React + Firebase)

B.A. in Communications

University of Illinois at Chicago

Graduated: 2021

Certifications

- Responsive Web Design – freeCodeCamp (2023)
- JavaScript Basics – Codecademy (2023)
- Currently learning React via The Odin Project

Projects

BudgetPal

A personal budgeting web app

- Built with React and Firebase
- Users can add, edit, and remove expenses
- Implemented basic login/signup using Firebase Auth

To-Do List App

A simple CRUD application using vanilla JavaScript

- Users can create, edit, and delete tasks
- Used localStorage to persist data

Portfolio Website

- Designed and developed a personal portfolio using HTML, CSS, and JavaScript
- Showcases completed projects and contact form
